Import Your Return Data

Paste your customer feedback or upload your returns CSV. The more data you provide, the more accurate your roadmap will be.

Method 1: Paste Feedback

Paste your return reasons directly. Put each reason on a new line.

```
The size runs too small
Colour looked different on the website
Item arrived with a broken zipper
Received the wrong size
Packaging was damaged
Did not match the product description
Too small compared to the size chart
Item was defective
Wrong item sent
The fabric quality was poor
```

Strategic Roadmap

ROOT CAUSE DIAGNOSIS

Sizing Issues

30% IMPACT

> *"Inconsistent sizing standards between brands or missing detailed measurements leads to customer confusion."*

RECOMMENDED FIXES

1. **Brand Comparison Chart**
   Add a size comparison chart showing brand-specific sizing vs standard sizing.
2. **Dual Measurement Display**
   Display measurements in both cm and inches for all product dimensions.
3. **Visual Fit Guide**
   Include a fit guide with body measurements and recommended sizes.

ROOT CAUSE DIAGNOSIS

Quality Issues

30% IMPACT

> *"Sub-par material durability or manufacturing defects that aren't caught before shipping."*

RECOMMENDED FIXES

1. **Supplier QC Checklist**
   Update supplier QC checklist with specific quality checkpoints.
2. **Durability Evidence**
   Add durability claims with supporting evidence such as material specifications or testing results.
3. **Protective Packaging**
   Improve packaging to prevent damage during shipping.

ROOT CAUSE DIAGNOSIS

Expectation Mismatch Issues

20% IMPACT

> *"Product images or descriptions don't accurately represent the color, texture, or*

ROOT CAUSE DIAGNOSIS

Shipping Damage Issues

10% IMPACT

> *"Inadequate protective layering or rough handling during the last-mile delivery*
